Timeline - py-shiny

- Py-shiny out of alpha April 2023

- `{shiny}` was created in Dec 2012

- `{DT}` took it over ; Initial - June 2015

- Gained basic interactivity through `{reactable}` in March 2023

- Initial - Feb 2020

- Basic data frame support October 2023

- `{shiny}` made `renderDataTable` over 10 years ago; October 2013

- `{gt}` produces beautiful static tables, (but not interactive for `{shiny}`); Initial - March 2020

- Maintenance mode in May 2021 due to license change

- `{rhandsontable}` improved upon it yet again; Initial - June 2015

- `{reactable}` is built on a modern table libraries (React Table)

- Rivals `{gt}` in number of examples
